

# Lighten UP!

## 22AL Stratos Series Harnesses

Built on the foundation of our trusted Stratos series, the 22AL Series harness takes safety and comfort to the next level. Designed with all-aluminum D-rings and hardware\*, this harness reduces weight without compromising strength or durability—making long days on the job easier on the back and shoulders.

Our **new aluminum cam buckle** allows for fast, precise fitting, ensuring the harness sits correctly on every user for maximum safety and comfort. The 22AL Series harness combines lightweight design, advanced features, and effortless adjustability—engineered for professionals who demand both performance and reliability.

### Standard Features Include:

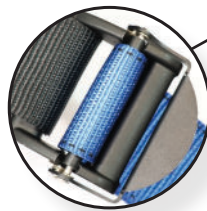

- Comfort back & waist pad
- Aluminum bayonet chest buckle
- Aluminum bayonet leg buckles
- Aluminum D-ring locations
- **New aluminum cam buckle** for easy torso adjustment
- Redesigned with a **lighter build than the original Stratos**

### Available Options:

The 22AL series is available in **most popular configurations** of our original Stratos series Harness. Including:

**22AL870B-BLUE** - 6 point adjustment, waist pad, hip d-rings, quick-connect legs.

**22AL670B-BLUE** - 5 point adjustment, hip d-rings, quick-connect legs.

**Custom options available!**

\*Variations of the harness that include a waist belt will still require steel grommets and a waist buckle.
