

GR200: GUARDRAIL SYSTEM

GR200

Portable Guardrail System

Setting up a portable guardrail system is a fundamental of fall prevention when working on open floors and roof tops. FrenchCreek's portable guardrail system provides a secure perimeter and is able to be installed on both a parapet, or on the edge of a concrete slab.

- Fits 4"-24" Parapets and C-slabs
- Dual-use versatility for slab edge and parapet installations
- Secures with adjustable clamp lever
- Plated alloy steel provides corrosion and damage resistance
- Lightweight, one-person setup and installation
