

# CLASS 2 PROTECTION PERSONAL SRL PERFORMANCE

CLASS 2  
PERSONAL  
SRL

The 8' Cable Personal SRL is built for workers who need compact fall protection without sacrificing performance. With a rugged steel cable lifeline, Class 2 versatility, and a lightweight, jobsite-ready profile, it helps crews stay connected, move efficiently, and work confidently at height.

## FC SAFETY 8' CLASS 2 PERSONAL SRL

MODELS XR0-8LE, XR4-8LE

Purpose-built for crews who demand reliable fall protection in a lightweight, everyday SRL.

XR0-8LE

XR4-8LE

### COMPACT 8' LENGTH

An 8-foot working length provides practical reach while keeping the unit lightweight, low-profile, and easy to manage.

### RUGGED STEEL CABLE

Durable galvanized steel cable helps deliver dependable performance in demanding jobsite environments.

### EXTERNAL SHOCK ABSORBER

Shock-absorbing design helps manage fall arrest forces in a compact, dependable system.

### MULTIPLE SNAPHOOK OPTIONS

Available with multiple snap hook configurations to match different jobsite connection needs.

### CLASS 2 VERSATILITY

Designed for approved anchorage locations above or below the dorsal D-ring.

### DUAL-LEG DESIGN
